So I wrote a book...

- Fundamentals IPM Guide
 - This book is a toolbox of cultural, mechanical and physical strategies to control pests
 - Intended for museums without professional IPM staff members
- Created with financial (grant) support of the North Central IPM Center and Green Shield
- Encouragement and feedback from members of MuseumPest.net- I appreciate you.
- Thank you to the staff at Spurlock Museum
- Available for free!

© Christa Deacy-Quinn

Since it has become available in Dec 2019, it has been...

- Downloaded over 700 times, over 325 hard copies requested
- In 48 countries including Netherlands, Italy, India, China, Philippines and Brazil
- In 49 US States including Puerto Rico, Washington, D.C.

as of March 2020

A Stepping Stone...

- This book was created to be the book I would have given myself 30 years ago
- You don't need to inspect all your artifacts daily, monitor 500 different traps, keep every inch of your museum spotless and seal every crack in your building to practice IPM.
- That level of IPM is not necessary or possible
- The best thing you can do is stay calm and choose the level of IPM that is right for you

Infographics are fun and informati

Leading workshops, university teaching, and also a neurodivergent person- accessibility is key for empowered learning

I am visual learner and my book condenses information into friendly infographics that is digestible for beginners and advanced practitioners alike.
